DETAILED ACTION

1. Receipt of applicant's amendment response April 11, 2007 is acknowledged. This response is a supplemental to consider claims 29-48.

Response to Arguments

2. It is requested the applicant provide further information in the form of evidence to allow the examiner to assess the statements made in applicant's remarks. For example, flow charts, diagrams or drawings of how the website worked before the current suggested modification so as to distinguish over the current claims. It is also not clear how claim 8 distinguishes from the website (or for that matter) any well known matching/brokerage systems.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1-48 are rejected under 35 U.S.C. 102(b) as being anticipated by the website www.poweropt.com.

The applicant has provided a website which discloses the fact that applicant's invention was available to the public for more than one year (December 12, 1998) prior to the effective date of the invention (September 29,2000). Since the invention was placed in public use and/or on sale, via the Internet, It is view as unpatentable [see MPEP 2133.03(a) and 2133.03(b)]
